Dear Friends,

As always, it is a joy to write to those who pray for and support us. This year has been a challenge for all the staff at Nyangombe not just because of the many Bible Teaching programs running during the year but also because so many of us are getting older!! I am sure that some will relate to this. Some of our team are also becoming the senior members of their respective families and challenges from all sides seem greater. Even more reason to trust the Lord for His wisdom and strength and to invest additional hours into discipling and training those who will eventually come after us and take up positions of leadership. Making disciples is front and center of what we do these days.

Discipleship, OM in Kabwe

One of our young men from Nyangombe applied for a two-month Discipleship Course with Operation Mobilization in Kabwe, Zambia where young people with a keen heart for God and spreading his Word through witness and ministry are trained. They learn to witness fearlessly and take every possible opportunity to win others for the Lord. Brings Njapawu, joined the group at OM and we look forward to having him back in November with a renewed enthusiasm for the Lord and His work.

There is so much to be done for the Lord across the nations in these momentous days in which we live as the return of the Lord is closer than ever and the fields are truly *'white and ready for harvest'*. Brings was a 'rebel' in his family as a younger man and we are praying that he might be fitted through further training to minister to the many disillusioned young people in villages around Nyangombe.

Literacy for Ladies

Following good success at the beginning of 2025 in teaching women to read, we made it part of every program to run a concurrent literacy course for ladies. Around 30 have now learned to read over the course of this year and each of them was able to read in front of a larger group from a Bible to demonstrate their newly acquired skill. We are so privileged to have such a great group of teachers and ex-teachers who are willing to invest time and to see some extraordinary results in a very short time.

Carpentry Trainees

When Trainee Carpenters have completed at least a year, we sometimes make them available to local Churches to help with roofing projects.

Congregations make and burn their own bricks and erect the building to roof height and then The trainees under supervision build the trusses and nail on the roofing sheets to complete the Church.

Grateful thanks for prayer and support

Gordon and Sybil
